SPARKS

TO HELP YOU FORGET some of "the cares that infest the day" (and night) pause long enough to inhale the fragrance of the honeysuckle now in full bloom in many Hondo yards. Makes the world seem a lot sweeter and gives a lift to your spirits.

IT DID RAIN LAST WEEK and our faithful Taylor-Chapman service did provide us with a short report. So short was the bit of paper it was written on, in fact, that it got lost in the desk shuffle on press day. However tardy, here it is for the rain-record-observers who tell us how eagerly they look forward to such items.

Downtown Hondo received a full inch on April 9-10. Heaviest amount recorded was at the Hollmig Ranch where 1.50 inches fell. D. Dailey and F. Rock each received 1.30, August Timmerman one inch and Doc Taylor's Rancho Chico three-quarters. Lighter rains have fallen since. Stand by for the next report.

THE TEXAS RANGE AND LIVESTOCK bulletin of April 12 says range condition over Texas improved six points during March to 81 percent or 12 points above a year ago. This made for the best April 1 condition since 1961 and records show that conditions have been better on April 1 only twice since 1945 . . . which might have something to do with the broad smiles many stockmen are wearing these days.

Cattle in green pastures in the hill country are sleek and fat and the grazing areas reflect peaceful pastoral scenes. Streams are running full, flowers are carpeting hill and dale and this section of our state looks plum pretty. HemisFair visitors need not wait to arrive at the fairgrounds to see some of the beauty.

THE KIMBLE MUSEUM, over Junction way, must be getting to be quite a place. Mention of it appears in the news frequently. For those interested in a weekend jaunt, the museum is open Sunday afternoons from 2 to 5. Last week they staged a "wildcat show" with displays of barbed wire, guns, coins, crafts, bottles, antiques etc. Participants bought and sold, swapped or just plain showed off their collections.

ABOUT MUSEUMS, best news locally is that the Hondo Garden Club has "notions" for the coming year. Never underestimate the power of those HGC members! A museum for Hondo has long been a dream of Lillian (Mrs. Bruno) Schweers, president-elect of the club. More power to her efforts!

READERS WHO REMEMBER JOE BUSER when he was editor of the Anvil Herald will be interested in this news about his latest assignment. Recently, he was named special assistant to the president of Texas A&M University. His duties will be to assist with University programs involving relations with high schools and junior colleges and other special projects.

Joe is a 1959 graduate of A&M. He has had a busy career since with many honors and promotions. Congratulations and good wishes are in order from the newspaper that served as one of the rungs of experience on the ladder to success, and they are sincerely extended.

MERELY A COINCIDENCE, of course, but just as I pecked out the words Texas A&M University above, the phone rang. It was a call from MAURICE ZERR reminding me to make mention of the annual Aggie Muster, a traditional observance on April 21. Read about it elsewhere in this issue.

Miss Johnson will work with Glenn Bragg, county agricultural agent, in developing and carrying out the county's total Extension education program for youth and adults.

The 7 p.m. meeting will be held at Hondo City Park. Muster Chairman Maurice Zerr, reported.

The Aggie Muster began in 1903 when the 300-member Corps of Cadets paid homage to the Texans who defeated the Mexican Army in 1836. Musters have been held since -- wherever A&M might find themselves on that day. Aggies have Mustered on board ship, in foxholes on the battlefield, in the Swiss Alps, and even on Corregidor, shortly before the Japanese captured the island in World War II. More than 500 Musters will be held around the world this year, including several in zones of war. For some A&M men, this will be their last Muster.

The ceremony is the same in every location. Aggies pay respects to those who are absent. When the names of honored dead are called from Muster rolls, a friend of the deceased answers, "Here".

IT'S OUR COUNTRY

It is time for the American people to attempt to see themselves as others see them.

We must say that the Communists are getting a great deal of solace from what they are hearing and reading about what is going on in the United States.

There are demonstrations against the war in Vietnam.

Many of our young men are burning their draft cards or are trying to turn them in.

In some instances, ministers of the gospel are openly sympathizing with the demonstrators.

There is widespread resistance and opposition to President Johnson's proposal for a tax increase.

We have had devastating riots in some of our big cities.

All those things must make "good news" for our enemies, the Communists.

Even in the depth of the Great Depression, there were not the disturbing events taking place in our country that there are now.

We had breadlines without violence.

Probably not since the Civil War

have we had such a demonstration of disobedience to authority in our country.

It is most disturbing.

What is being overlooked, however, is that the vast majority of the American people are law-abiding.

In the face of demonstrations, other young men are presenting themselves to draft induction centers.

Probably 99 per cent of the American people are paying their taxes, and would continue to do so if a tax increase were voted.

The war in Vietnam is being pressed regardless of the turmoil at home.

At least 95 per cent of the American people are going about their daily lives, attending to their own business.

The dissenters are the ones attracting the attention.

When we stop to think about those things, we do not feel so bad after all.

It's still our country.

It's still the greatest and grandest country in the world.

'Be All You Can Be—Read!'

The following paragraphs are taken from Governor John Connally's proclamation of Library Week in Texas, designated as the week of April 21-27.

"Be All You Can Be—Read!" is the theme for the 1968 National Library Week Program, the year-round reading and library development campaign scheduled to hold its eleventh annual observance April 21-27.

The library is one of the foundation stones of human freedom and human dignity. The library offers the place for the opportunity to learn and to know, the opportunity without which the citizen cannot be free. Public, special, school and academic libraries serve as pools of information from which we can draw to grow in knowledge and understanding.

The library stands like an open door to all citizens. The more information the library contains, the wider the door is opened, and the greater opportunity it offers for widened

horizons and heightened skills and abilities. The library offers these opportunities to fulfill the potential that exists in every man, to "Be All You Can Be—Read."

National Library Week highlights the importance of all types of libraries and their services. The development and continuance of good reading habits through greater use of libraries is encouraged. Stimulation of better library support and recruitment to the library profession are other aims of this special week.

★★★

The Hondo Public Library, established last year, offers opportunity to all who will use its many services, all of which are free. Take time this coming week to visit our library and see for yourself how much has been accomplished.

Good reading habits should be established early but it is never too late to try to "Be all you can be—Read!"

Letters TO THE EDITOR

Harleton, Texas
April 10, 1968

Hondo Anvil Herald
Hondo, Tex.

Calendar watchers are likely to be up on the average reader, in knowing that May 1st is "Loyalty Day", one of the many special days celebrated each year. The originators of Loyalty Day, the Veterans of Foreign Wars, reasoned that an observance was needed on that date, to counteract the Communist anti-American May Day celebrations throughout our country.

In 1968 there is an urgent need for a show of patriotism. Its meaning and the meaning of such words as loyalty, faith, freedom, liberty and license, (all plain ordinary American words) are being questioned and discussed.

Generally accepted definitions vary in meaning, depending upon the individual, how passionate he is in defense of the nation and its principles.

Loyalty means allegiance to a principle, carrying with it the obligation to defend that principle patriotism identifies

one's love of country, his dedication to support authority, security and common interest. Faith indicates belief in an ideal, with willingness to defend that faith. Liberty is freedom from any restraint, to think and act without fear.

License is the abuse of all this. License misdirects these virtues, and blessings into negative and destructive channels and allows personal prejudices to lead to selfish, violent, destructive and illegal actions.

The VFW urges its members and their neighbors to a high degree of loyalty, to oppose sedition, treason, public violence or disloyalty.

Congress, in designating each May 1 as Loyalty Day, urges that every person reaffirm his loyalty to the United States of America, and display our Flag proudly on that date.

Announcing Chevrolet's new Torque-Drive.

Nobody else offers anything like it at the price.

Torque-Drive does away with the clutch pedal. Most of the shifting, too. And for the most economy, it's available exclusively on all Camaro sixes and Chevy II

Nova 4- and 6-cylinder models.

Look how simple it is. You accelerate in 1st, then shift to Hi for cruising. That's all. If you like, you can even start in Hi. And accelerate from standstill to cruising speed. It's just a little slower that way.

The shift lever is conveniently located on the steering column, and there's a selector quadrant with easy-to-read indications. Park-RN-Hi-1st. Only your Chevrolet dealer has it—clutchless driving at only \$68.65.

Service Jobs Open To Grads

The most promising employment fields for high school graduates entering the labor force permanently this year are in the service occupations, Secretary of Labor Willard Wirtz has reported.

In urging the Nation's 1968 graduates to pick a job with a future, Secretary Wirtz cited the following occupations as having the best employment outlook for the next several years: Airline reservation agent, airline stewardess, appliance servicemen, bookkeeping worker, cosmetologist, electrician, draftsman, and salesmen.

Wirtz pointed out that a high school graduate must be careful to pick a job with a future, since many jobs open to them are more vulnerable to changes in technology than jobs requiring a college education.

OTHERS
Other growing fields include secretaries and typists, and office machine operators to man billing, calculating and duplicating machines.

Wirtz also asked young graduates to seriously consider the wide range of job opportunities in the health field before making a final choice.

"You are needed and wanted in hospitals, clinics and laboratories," he said. "The door is wide open for new young workers to fill such jobs as licensed practical nurse, medical record technician, admitting clerk, and laboratory assistant."

Wirtz noted that to qualify for a number of job openings, post-high school training is a requirement.

These needed skills can be acquired in a variety of ways, he said, particularly through the on-the-job training, apprenticeship training, and skill training available under Manpower Development and Training Act programs.

This May and June 2,693,000 young people will receive high school diplomas. Employers in business, manufacturing and service industries are already scouting the schools and local public employment offices for diligent and ambitious young graduates.

PTA PRESIDENT ATTENDS WORKSHOP

Mrs. Alvin Wiemers, president of the Hondo Parent-Teacher Association, attended the PTA president's workshop at John Jay High School, San Antonio, on April 5.

Mrs. Florence Danforth, National Council advisor, suggested many areas in which PTA can help promote the welfare of school children in activities that include the home, church and community as well as the schools which they attend.
